

CAPABILITY STATEMENT

Trusted lifting, rigging and inspection support since 1972.

Sydney Lifting Equipment Pty Ltd

An Arcus Wire Group Company

Company Overview

Sydney Lifting Equipment (SLE) has been a trusted supplier of lifting and rigging equipment to Australian industry since 1972.

Based in the Mount Kuring-gai Industrial Estate on Gundah Road, SLE has built a reputation for quality lifting products, technical expertise and reliable customer service across a wide range of industries.

Now part of Arcus Wire Group (AWG), SLE combines decades of local lifting experience with stronger stock access, supplier support, systems and long-term investment.

Who We Are

SLE delivers practical lifting solutions for contractors, industrial operators, marine businesses and project teams that need the right equipment, fast turnaround and experienced technical advice.

We focus on understanding the application, not just supplying a product.

We bring long-term, practical industry experience to every customer requirement.

We are responsive, accessible and easy to work with, with clear communication.

When something is not straightforward, we help find the right lifting solution.

Sam Bellis, Director at Bespoke Wire and Rope Pty Ltd

Product Advice & Local Support

Customers can visit our Mount Kuring-gai branch for lifting, rigging, safety and stainless steel product advice.

Our team helps select the right equipment for the application, whether it is a standard replacement, urgent supply requirement or more technical lifting problem.

What You Get & How It Works

SLE provides professional inspection, testing and repair services that give customers clear visibility of what is compliant, what needs action, and what can remain safely in service.

- ✓ Inspection of lifting and rigging equipment
- ✓ Identification of non-compliant or damaged items
- ✓ Load testing and certification support
- ✓ Colour-coded tagging in accordance with the industry RIGBY inspection system
- ✓ Updated inspection register and clear compliance visibility
- ✓ Repair, replacement or recertification recommendations
- ✓ Practical advice to support faster decisions on site

Inspection Options & Core System

Option	Best For	Included
Half Day Inspection	Smaller sites or targeted inspection work	Up to 4 hours on site
Full Day Inspection	Full site coverage or larger asset bases	Up to 8 hours on site

Optional access to the **CORE Inspection System** helps customers stay in control of their lifting assets by:

- ✓ tracking all equipment
- ✓ maintaining inspection records
- ✓ monitoring compliance status
- ✓ planning upcoming inspections

Please note: Half-day and full-day inspection options are available. If additional time is required, we confirm approval before continuing so there are no surprises.

Industries & Project Experience

Industries Supported

- ✓ Construction and infrastructure
- ✓ Industrial maintenance
- ✓ Marine and ports
- ✓ Manufacturing
- ✓ Transport and logistics
- ✓ Shutdowns and critical service work

Project Experience Includes

- ✓ Darling Harbour
- ✓ Sydney Olympic Stadium
- ✓ Sydney Harbour Tunnel
- ✓ Northside Storage Tunnel
- ✓ Sydney high-rise construction

Why Choose SLE

SLE combines practical lifting experience, responsive local service and the supply strength of Arcus Wire Group.

Experience that matters

Established in 1972, SLE brings decades of lifting, rigging, inspection and testing knowledge to real-world applications.

Reliable service

Our team is responsive, accessible and focused on helping customers keep operations running safely and efficiently.

Practical problem solving

When requirements are unclear or complex, we help identify the right equipment, inspection pathway or repair solution.

Backed by capability

Supported by Arcus Wire Group, SLE offers stronger supply, improved availability and broader technical support.

Backed by Arcus Wire Group

Since 2026, SLE has been part of Arcus Wire Group, strengthening supply capability, operational support and long-term investment in lifting solutions.

- ✓ Greater stock access
- ✓ Stronger supply and pricing support
- ✓ Continued local service
- ✓ Stronger supplier partnerships
- ✓ Broader technical capability

Systems, Compliance & Facilities

Our systems and facilities help customers reduce compliance risk, manage inspection records and keep lifting equipment available for use.

Systems & Compliance

- Digital inspection records and asset tracking via the CORE Inspection System
- Structured inspection and maintenance programs
- Colour-coded tagging using the industry RGBY inspection system
- Alignment with Australian Standards and industry best practice
- Clear recommendations for repair, replacement or recertification

Facilities & Capability

- Mount Kuring-gai showroom, warehouse and workshop support
- Load testing capability, including horizontal and vertical testing
- Wire rope swaging and fabrication capability
- Portable testing and on-site service equipment
- Stock holding to support fast turnaround
- Experienced team with decades of industry knowledge
